TRAINING TODAY, FOR TOMORROW'S FUTURE

LiUNA Local 183, founded in 1952 by Gerry Gallagher, has over 66000 members, making us the largest Construction Local Union in North America .

Our goal as the LiUNA Local 183 Training Centre is to provide our apprentices and members with the highest standard of skills and safety training. Our hands-on training is meant to simulate a true construction sector setting to ensure that the industry receives workers who are competent and productive. We offer Ontario registered Apprenticeship Programs, Construction Skills Programs and Health and Safety Programs.

A MESSAGE FROM OUR

BUSINESS MANAGER

Dear Brothers and Sisters,
As our membership surpasses 66,000 members, the need for a highly skilled and versatile workforce continues to grow alongside it. In addition to the strength of our Union, we also offer the best in-class apprenticeship, skills, and health and safety courses to our members through the LIUNA Local 183 Training Centre.

Your safety on the job remains the number one priority of the Board of Trustees. With six campuses located in Toronto, Vaughan, Barrie, Cobourg, Kingston, and Cambridge, we offer a vast array of health and safety and skills upgrading courses to ensure you have all the necessary specialized training to perform your work safely and effectively.

Whether it's a provincially required course to maintain your health and safety certifications or a skills upgrading program to increase your skills and expertise on a job site, our Training Centre has you covered. I encourage you to connect with the Training Centre staff to inquire what programs are available and how you can participate in them.

In closing, I would like to thank the staff of the Training Centre for their ongoing dedication and commitment to servicing the needs of our great membership by providing the best health and safety, skills, and apprenticeship courses in North America.

In Solidarity,

JACK OLIVEIRA
BUSINESS MANAGER
LIUNA LOCAL 183

A MESSAGE FROM OUR **EXECUTIVE DIRECTOR**

The LiUNA Local 183 Training Centre is proud of the services we provide to our membership and employer partners. We continue to offer a vast number of comprehensive construction skills and apprenticeship programs, covering the many sectors of the construction industry. The membership of LiUNA Local 183 is by far the number one source of promotion for the Training Centre.

We recommend to our membership that they continue to upgrade their skills and we ask for your assistance and leadership when interacting with young men and women, encouraging them to explore a career in construction.

We continue to look for ways to improve our service to the membership of LiUNA Local 183 and we thank you for your ongoing support and continued dedication, to providing a safer work environment for the entire construction industry.

In Solidarity,

A handwritten signature in black ink, appearing to read 'S. Pinto'.

SANDRO PINTO
EXECUTIVE DIRECTOR
LIUNA LOCAL 183 TRAINING CENTRE

INCLUDING OUR FLAGSHIP CAMPUS IN VAUGHAN, WE HAVE A TOTAL OF 6 DIFFERENT CAMPUSES SPREAD ACROSS SOUTHERN ONTARIO.

A full-page photograph of construction workers pouring concrete. A concrete mixer truck is in the background, pouring concrete into a large chute. Four workers are visible: one in the foreground left wearing a grey shirt and dark pants, another in a blue shirt and jeans, and two others further back. They are using long-handled tools to guide the concrete into a prepared form on the ground. The scene is outdoors with trees and a clear blue sky in the background.

APPRENTICESHIP PROGRAMS

OUR APPRENTICESHIP PROGRAMS RANGE FROM 6-8 WEEKS IN LENGTH AND PROVIDE THE APPRENTICES WITH COMPREHENSIVE SIMULATED REAL JOB SITE EXPERIENCE.

BRICK AND STONE MASON

Ontario 

EMPLOYMENT
ONTARIO

» Trainees will gain experience laying and cutting brick, stone and concrete blocks in various construction settings. They will also learn about masonry systems and how to construct and repair various structures including walls, arches, and fireplaces. Trainees will be taught to use several hand and power tools that bricklayers use daily, and enhance their trowel and hammer skills. Being a bricklayer involves working in high speed environments where problem solving, creativity and proactive thinking is essential. People interested in this trade must be comfortable working in the elements and at heights.

3 LEVELS

DURATION

8 Weeks (per level)

TUITION

\$400

CERTIFICATION

Red Seal Trade

CAMPUS

Vaughan, Barrie &
Cobourg

CEMENT FINISHER

Ontario 

EMPLOYMENT
ONTARIO

- » A Cement Finisher masters the art of applying various finishes to concrete surfaces such as architectural, exposed, acid-stained, patterned, broomed finish overlays, and smooth finishes. Cement Finishers work on a wide variety of vertical and horizontal surfaces and structures such as concrete floors, walls, sidewalks, stairs, driveways, curbs, gutters, dams, bridges, and tunnels. Cement Finishers must possess a sound knowledge of the properties of various types of concrete and how mixes, proportions, and additives affect concrete strength, setting, curing times, finishes, and durability.

During the apprenticeship, trainees will also learn mathematical calculations as well as proper use of measurement, layout, and leveling tools required in the cement finisher trade. Trainees will be taught to use hand and power tools such as floats and screeds.

2 LEVELS

DURATION
8 Weeks (per level)

TUITION

Red Seal Trade

CAMPUS
Vaughan

CONSTRUCTION CRAFT WORKER

Ontario 

EMPLOYMENT
ONTARIO

» The Construction Craft Worker (CCW) Apprenticeship is an extremely versatile program that offers the trainee the capacity to work in a variety of sectors and construction fields. Our program covers a broad base of skills including form setting, scaffolding, and concrete placement skills. Some of the tasks completed by a CCW trainee include constructing and dismantling concrete forms, scaffolding, ramps, catwalks, shoring, and barricades required at construction sites. In addition, they may mix, pour and spread materials such as concrete and asphalt. They may also assist with demolition, removal of rubble and other debris from a site and may operate various power tools, machines, and other equipment as directed.

Sectors to Consider: Utilities, Sewer & Watermain, Heavy Civil, Roads, Residential High Rise and Low Rise Forming, Landscaping, and Concrete and Drain.

TRACTOR LOADER BACKHOE

(HEAVY EQUIPMENT OPERATOR)

Ontario 

EMPLOYMENT
ONTARIO

» A Tractor Loader Backhoe Operator inspects, maintains, transports, and operates full (standard) size equipment in the construction and industrial sectors. Some of the duties include performing a pre-operational inspection, transporting equipment, installing attachments, and loading and unloading equipment. In addition, operators will also work on excavating, trenching, grading, stockpiling and backfilling, among other duties.

Sectors to Consider: Roads, Sewer & Watermain, Utilities, Low Rise Builders, and Landscaping.

CAMPUS
Vaughan

A construction site in winter. In the foreground, a worker in a white hard hat and high-visibility vest stands on a wooden platform. Behind him, another worker in an orange jacket is working on a large yellow metal frame. A crane's bucket is suspended in the air, and a tall rebar structure is visible in the background. The ground is covered in snow, and there are stacks of pipes and materials.

CONSTRUCTION SKILLS PROGRAMS

OUR CONSTRUCTION SKILLS PROGRAMS COVER MANY OF THE SECTORS THAT OUR MEMBERS WORK IN. THESE PROGRAMS SERVE AS A VIABLE OPTION FOR NOT ONLY THE PEOPLE THAT ARE NEW, BUT ALSO CURRENT MEMBERS LOOKING TO SPECIALIZE IN A PARTICULAR NEW SKILL.

ASPHALT

- » The Asphalt Worker program provides hands-on training in the placement, spreading, raking, and compaction of asphalt materials. Safety issues pertaining to working with asphalt are also covered including burns, fumes, chemicals, and heat stress. Trainees are introduced to the properties, uses, and mix designs of asphalt and the equipment and tools used in paving operations.

CAMPUS
Vaughan

HIGH RISE RODMAN

- » In the High Rise Rodman program, trainees will learn to tie columns/cages, walls, and slabs. They will learn to follow the drawings and lay the steel bars and rebar chairs accordingly. Participants will also be learning to cut steel, bend bars (with and without the powerbending tools), and build footings and beams.

DURATION
3 Weeks

TUITION
\$600

CERTIFICATION
Certificate of Completion

CAMPUS
Vaughan

HIGH RISE SWAMPER/RIGGER

- » In a highrise project, the swamper communicates with the crane operator to plan and set up safe lifts onsite. In this program, participants will learn how to safely work with and around cranes and understand the factors that affect crane capacity. They will gain experience making lifts with various types of loads and understand the proper rigging hardware and equipment to use given the shape and the size. Participants will also be exposed to the process of flying forms, as well as practice communicating with the crane operator using proper terminology and accurate distances.

RESIDENTIAL SERVICE TECHNICIAN

- » The Residential Service Technician program is tailored to suit the needs of those wanting to learn the fundamentals of various trades. Trainees will be exposed to plastering, kitchen fitting, bathroom installation, minor tile replacement, and some basic carpentry. The program will cover taping, caulking, and sanding areas requiring preparation for various treatments such as priming or sealing. Furthermore, the trainee will learn general painting and decorating as a part of this program.

DURATION
7 Weeks

TUITION
\$1,200

CERTIFICATION
Certificate of Completion

CAMPUS
Vaughan

RESIDENTIAL TRIM

- » In this program, the trainees will cover various topics such as how to install jambs before the doors or windows can be hung. They will also learn how to install casings and baseboards. Other additional trim work may include wainscoting, chair railings and crown moldings. Participants may also demonstrate skills such as installing locksets, hinges and all of the respective necessary hardware to go with it.

DURATION
7 Weeks

TUITION
\$1,200

CERTIFICATION
Certificate of Completion

CAMPUS
Vaughan

ROAD CONSTRUCTION

- » In the Road Construction program, trainees will learn how to set lines and grades. They will also learn how to form and pour different types of curb and gutter. They will also demonstrate the skills required to set and install catch basins, frames and covers. Workers may work on projects including roads, highways, parking lots, bridges and patchwork.

DURATION
6 Weeks

TUITION
\$1,200

CERTIFICATION
Certificate of Completion

CAMPUS
Vaughan

SEWER AND WATERMAIN

- » In this program, trainees will learn to install PVC sewer and watermain pipes, chambers and concrete pipes. Participants will learn to properly assemble trench boxes (steel boxes and speed shoring) and install fire hydrants and valves. They will also be exposed to other skills such as tapping watermain (PVC and cast).

DURATION
